2025 Florida Panthers Stanley Cup Ring

The Florida Panthers 2025 Stanley Cup Ring captures the details of the franchise's historic back-to-back seasons, featuring over 450 diamonds and rubies totaling approximately 16.15 karats of gemstones.

The ring top prominently displays 'PANTHERS' in 14-karat yellow gold. Behind the tab are two Stanley Cups representing the 2024 and 2025 championship seasons with 81 diamonds, sitting atop 20 rubies which are encircled by 40 round rubies. On the left and right sides of the ring top, the Panthers 'STANLEY CUP CHAMPIONS' title is set in 14-karat yellow gold adorned with 145 diamonds. As well, 122 additional diamonds flood the remaining sides of the ring top and 18 princess-cut genuine rubies, set in 14-karat yellow gold, surround the ring's edge.

The left side of the ring displays the recipient's name in 14-karat yellow gold with the side panel in the shape of the Panthers primary shield logo with a tab featuring either the recipient's title within the organization or 'PANTHERS.' Within the distinct shield and atop a 14-karat yellow gold sun is the recipient's jersey number in diamonds or the Panthers alternate mark.

On the right side of the ring, 'FLORIDA' is displayed in 14-karat yellow gold. Inside the side panel is the year '2025' studded with 29 diamonds, along with the Panthers modernized 'Leaping Cat' logo and a banner memorializing the back-to-back Stanley Cup Championships.

There are white gold palm trees that wrap around the finger hole on each side of the ring and a sleek, prowling panther that completes the exterior on the outer palm side.

The interior of the ring features a collection of unique items including:

- 'WE APOLOGIZE TO NO ONE,' is boldly engraved above the result of each series from the team's Stanley Cup Playoff run
- The date the Florida Panthers won the 2025 Stanley Cup Championship: June 17, 2025
- A representation of a black rat to pay homage to one of the longest fan-led Panthers traditions celebrating each Panthers win by throwing plastic rats onto the ice
